

Giovani Apolinario Ocan

Full Stack Software Engineer

👤 Profile

I'm a Full Stack developer, focused in the Front End, with experience in developing React.js/Next.js, React Native application and Node.js, developing scalable applications , improving application`s performance and integration. Supportive and enthusiastic team player dedicated to streamlining processes and efficiently resolving project issues.

💼 Employment History

Full Stack Software Engineer at Freelancer, Remote

July 2022 — present

- In my freelance journey, I've engaged in web development projects, applying my skills to design responsive interfaces and enhance performance.
- Built a website for a cheese-bread company, resulting in a 15% increase in sales. The new page allowed for a clear and easy showcasing of their products.
- Responsible for building, implementing, and maintaining several applications using React, JavaScript and Typescript.
- Engineered and maintained web systems with React.JS, enhancing web view optimization, minimizing page load times, and optimizing user experiences. Incorporated Redux and Next.js for this purpose.
- Led the development of full-stack applications by integrating Node.js with React, elevating performance and integration. Leveraged REST architecture to construct and consume APIs.
- Collaborated on various multiplatform applications using React Native.
- Collaborated within a team, utilizing Git and GitHub for version control, elevating company productivity, ensuring clean code, robust architecture, and adopting Agile methodology for enhanced programming experiences and client satisfaction.

Founder and Front End Software Engineer, In-person

July 2022 — present

- A startup is dedicated to addressing public transportation challenges in small and medium-sized Brazilian cities.
- After creating a comprehensive website for consolidating public transport information, we significantly enhanced the company's online and local visibility.
- Through the development and implementation of a website, we achieved a remarkable 50% reduction in inquiries made via phone calls

Good team player

Independent, problem solver, and always with a proactive attitude

Creative

for information.

- We adeptly develop and maintain web systems using React.JS, Next.js, and TypeScript, optimizing web views to minimize page loading times and enhance user experiences.
- By implementing Git version control within a distributed development framework, we effectively manage releases and maintain proper project versions.
- We embrace Agile methodology to elevate client satisfaction and overall experience

Front End Engineer at inkPen, Remote

July 2023 - Present

- Collaborated on a school management platform with a diverse team of developers, designers, and professionals, improving the team's performance by 15%.
- Specialized in front-end tasks, including creating and enhancing interface components.
- Used technologies: ReactJS, Next.js, TypeScript, and Tailwind CSS for responsive designs.
- Applied REST principles for smooth API integration.
- Managed version control through Git and GitHub for organized development.

.

Front End Engineer at Federal Paraná Institute, Câmpus Avançado Goioerê - PR

July 2022 — October 2022

- Participated in various projects at IFPR (Instituto Federal do Paraná).
- Led a key project focused on creating a full-stack voting system using React and Node.
- Developed a platform to manage votes and generate results for a significant annual event.
- Utilized React and Node technologies to build a robust and efficient application.
- Implemented APIs following REST principles to seamlessly integrate different components.
- Leveraged Git for version control, fostering a collaborative and organized development workflow.
- Achieved successful collaboration within the team to ensure project milestones were met.

Education

**Computer Technician , Federal Paraná Institute, Câmpus Avançado
Goioerê - PR**

January 2019 — December 2022

Courses

**Full Stack Developer HTML | CSS3 | React | Javascript | TypeScript |
Next | Node | React Native | Rocketseat**

July 2022 — August 2023

English Fluency, Fluency Academy

January 2023 — present
